Sayam Sen Gupta did his undergraduate degree in Chemistry from University of Kolkata followed by his masters at IIT-Kanpur. He then moved to United States where he finished his doctoral degree from Carnegie Mellon University at Pittsburgh. After two post-doctoral stints in US and Germany (Alexander von Humboldt Fellow), he joined NCL as a scientist in December 2006 where he was a Senior Scientist in the Chemical Engineering Division. He moved to IISER-Kolkata in 2016 as an Associate Professor and is currently Professor in the Department of Chemical Sciences. He is an inorganic chemist by training and works in the broad area of sustainability, particularly in bio-inspired catalysis and materials. He also teaches Sustainability and Chemistry at IISER Kolkata, a course which he co-developed.
